

Name: Marium Yousuf

Dear Faculty,

I would like to know your preferences for the **Spring 2027** semester. We cannot always guarantee to give everyone the perfect semester, but with your requests, we hope to get closer to that goal.

Please list the courses that you are able to teach.

Precalculus, Calc I, Calc II, College Algebra, Discrete Math, Plane Trig

Which courses do you prefer to teach, list them in order of preference so that we can give you your second or third preference if we cannot provide your first choice.

Calculus II

Calculus I

Pre-Calc or College Algebra

Which rooms do you prefer to use? Specify if a course requires a room with student computers

Corley 267

Rothwell 312, 306, 206, 213

RPL 334

What times do you feel would best suit you (times, days, back to back courses y/n, etc).

Mornings preferred after 9am, back to back OK, would prefer class rooms in the same building

Schedule similar to my Fall 2026 would be great

Please block 1:30PM- 3:00PM on Fridays for me

Thank you for your time.
