

Name: Matth Overdun

Dear Faculty,

I would like to know your preferences for the **Spring 2027** semester. We cannot always guarantee to give everyone the perfect semester, but with your requests, we hope to get closer to that goal.

Please list the courses that you are able to teach.

Business Calc, Calc I, DFCQ, Discrete Math,
Real Analysis,

Which courses do you prefer to teach, list them in order of preference so that we can give you your second or third preference if we cannot provide your first choice.

Business Calc, DFCQ, Discrete Math

Which rooms do you prefer to use? Specify if a course requires a room with student computers

All in Corley

What times do you feel would best suit you (times, days, back to back courses y/n, etc).

Any day/time of the week.

Thank you for your time.
